

Des Moines “Sixth Sense Transformers” Meetup Group

www.meetup.com/sixthsensetransformersDesMoines/

Initial Mission Statement – What We Do

The Des Moines “Sixth Sense Transformers” group meets to explore the principal of abundance, the law of attraction, the challenge of achieving balance in life, tough immersed in this rat race we call life. We accept responsibility to be masters of our own destiny. We seek to realize our aspirations through use of tools which empower us to make better decisions, leading to a rewarding and exciting life!

We choose to use our “Sixth Sense” to enjoy our lives – now!

What We Do Not Do

We conscientiously do *not* let the topics of religion, politics or sex dominant the conversation. We recognize the power of these topics to divide, rather than unite, so we work hard to leave these topics at the door as we arrive. We also try to make sure no one individual dominates the discussion, which includes the facilitator. The facilitator, therefore, encourages participants to bring ideas, insights, and /or reasoning power to share at our meetings.

Meeting Format – A Meetup Group

Saturday Morning “Meetups” - 2nd Saturday of the Month – AAI Building (initially) – 8:30 – 10:30AM.

The group is an offshoot of Two Rivers REIA. While many of the initial members may come from Two Rivers REIA, we will quickly expand our reach beyond RE investors as meetings will be open to the public.

Andrew Lietzow is the initial facilitator. Group participants help drive the conversation and the topics being discussed. Someone has to get things going, so I accept that role. However, I strongly encourage others to speak and actively participate.

This Meetup Group is an offshoot of Two Rivers REIA. At year end, 2010, a survey indicated there is definite level of interest in a formalized “Personal Goal Setting” agenda. Because the numbers were not large enough to “force” the whole membership to participate, since I was already restructuring Two Rivers REIA to only big meeting per month (the 4th Tuesday meeting), this left the 2nd Saturday time slot open. Voila – a new meeting with a new focus!

Meetup Members are simply become “list subscribers” at the Meetup Group website. There are no “membership” dues, no registration process at meetings – just a sign-in sheet. We encourage participants to subscribe to the list server to keep informed.

We have meeting expenses – room rental, donuts, coffee, Meetup Group Fees, etc. – so donations will be accepted.

Strategic Goal Number 1

For much of my life, I have enjoyed studying the works of Paul J. Meyer, Napoleon Hill, Wallace D. Wattles, Brian Tracey, Jim Rohn, Dale Carnegie, W. Clement Stone, Leo Weidner, Norman Vincent Peale, etc. Sometimes this was through casual reading, other times the study was more formal and structured. Both techniques offer unique advantages.

Fortunately, now that we are upon the Age of the Internet, other globally recognized leaders of personal development are making a variety of study aids available, online, including Marshall Sylver, David Childerley, Lisa Jimenez, Napoleon Hill, and many others.

The plan is to begin meeting up and see where the effort takes us! Through July, I will list this Meetup Meeting on the Two Rivers REIA website as an “Optional Saturday meeting with a different focus”. The first meeting will be February 12th then every 2nd Saturday thereafter, at least until Summer.
